Residential Drainage & Landscape Products

DrainLine 150 is a durable polymer concrete trench drain system for use around residential, office and other light duty areas. It is a practical system for draining large amounts of water. Its polymer concrete construction offers excellent mechanical and thermal properties.

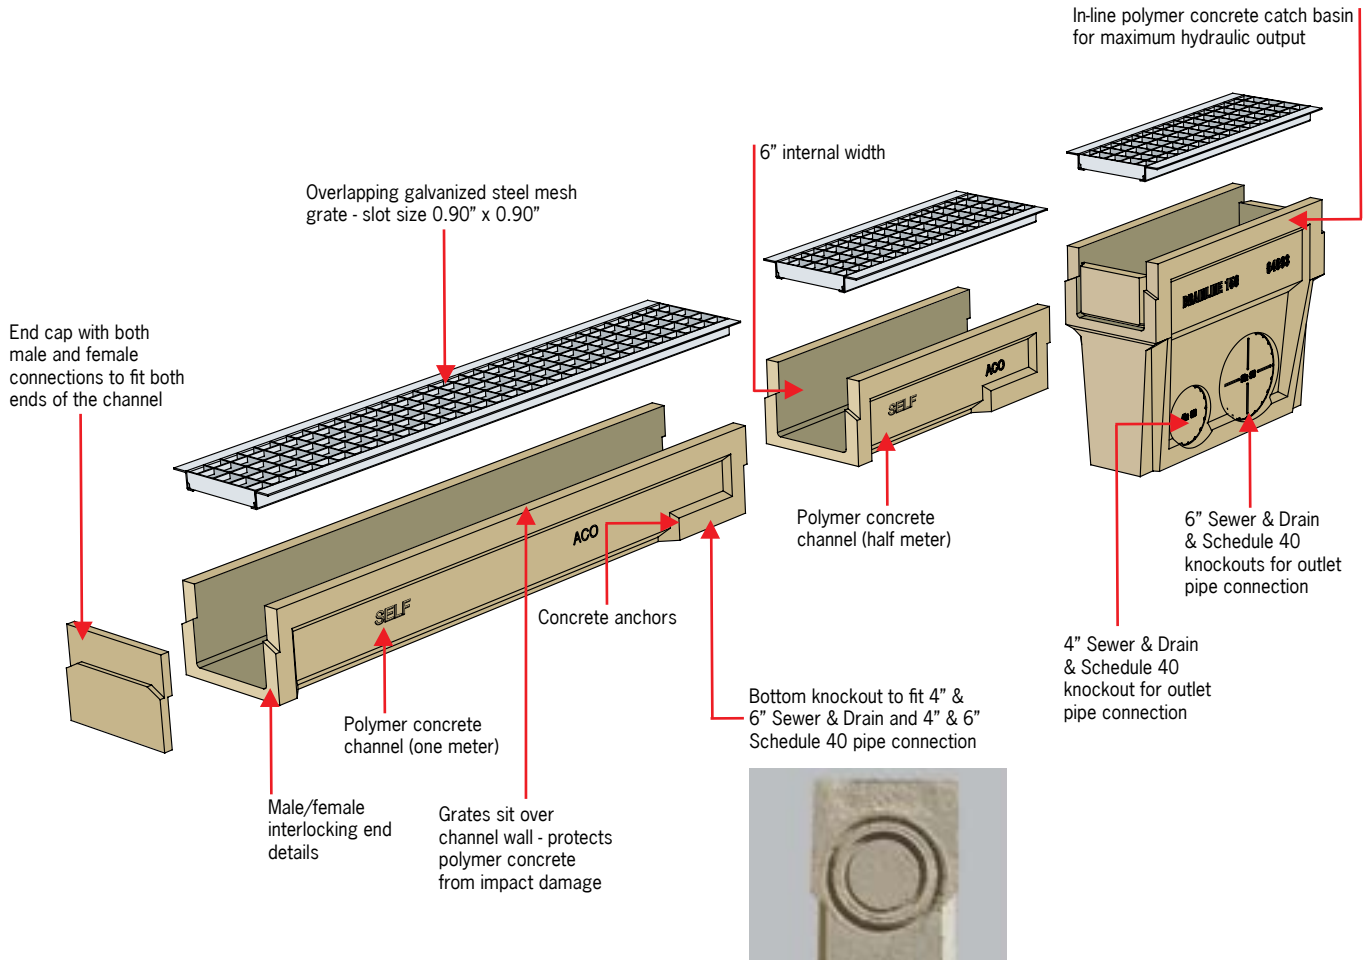

Suitable for pedestrian/light vehicle traffic applications such as:

- Driveways
- Patios
- Walkways
- Cart paths
- Light traffic parking areas

The system offers a number of layout and outlet options, including half meter channels and in-line catch basin.

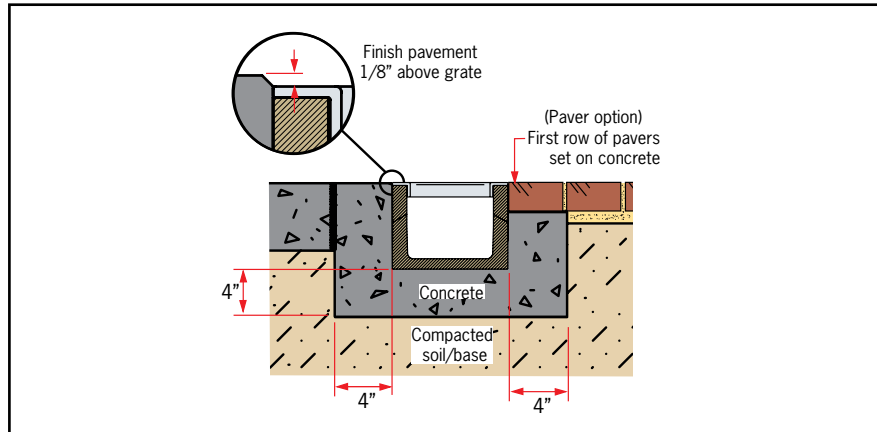

Product Overview

Part Table

	Part No.	Length inches	Width inches	Height inches	Wgt. lbs.
Channel with grate (1 meter)	03612	39.4	7.8	5.7	47.1
Channel with grate (1/2 meter)	03616	19.7	7.8	5.7	23.5
Catch basin with grate	04093	19.7	7.8	15.7	61.0
Closing cap	03697	-	7.8	5.7	1.5

Installation Diagram

For driveway applications, trench drain **MUST** be surrounded by 4" of concrete.

Installation Instructions

Excavate area to allow room for channels/catch basin and 4" of concrete on all 3 sides.

Pour concrete bed - 14" wide by 4" deep, keep outlet pipe clean.

Lay channels starting at outlet. Set a string line at required height to ensure level.

Install pavers or finish pavement surround to required level, should be 1/8" above grate.

Clean away debris, remove protective plastic if necessary. Seal joints if required.
